DRAFT//PRE-DECISIONAL

Tug-barges add 1% more route cells, mostly near Atlantic, Gulf, and Great Lakes ports

Route cells that only tug-barges put over the threshold (6,515 cells, blue) on the other large-ship routes (gray)

Source: NTIA analysis of MarineCadastre AIS, 104 sampled days in 2023 and 2024; large ships = cargo, tanker, passenger, military, and other seagoing ships 100 m or longer, plus tug-barges near the coast.
