DRAFT//PRE-DECISIONAL

The busiest 7% of route cells carry half of all large-ship traffic

Distinct large ships per 1 km route cell, 2023 and 2024 together

Source: NTIA analysis of MarineCadastre AIS, 104 sampled days in 2023 and 2024; large ships = cargo, tanker, passenger, military, and other seagoing ships 100 m or longer, plus tug-barges near the coast.
