DRAFT//PRE-DECISIONAL

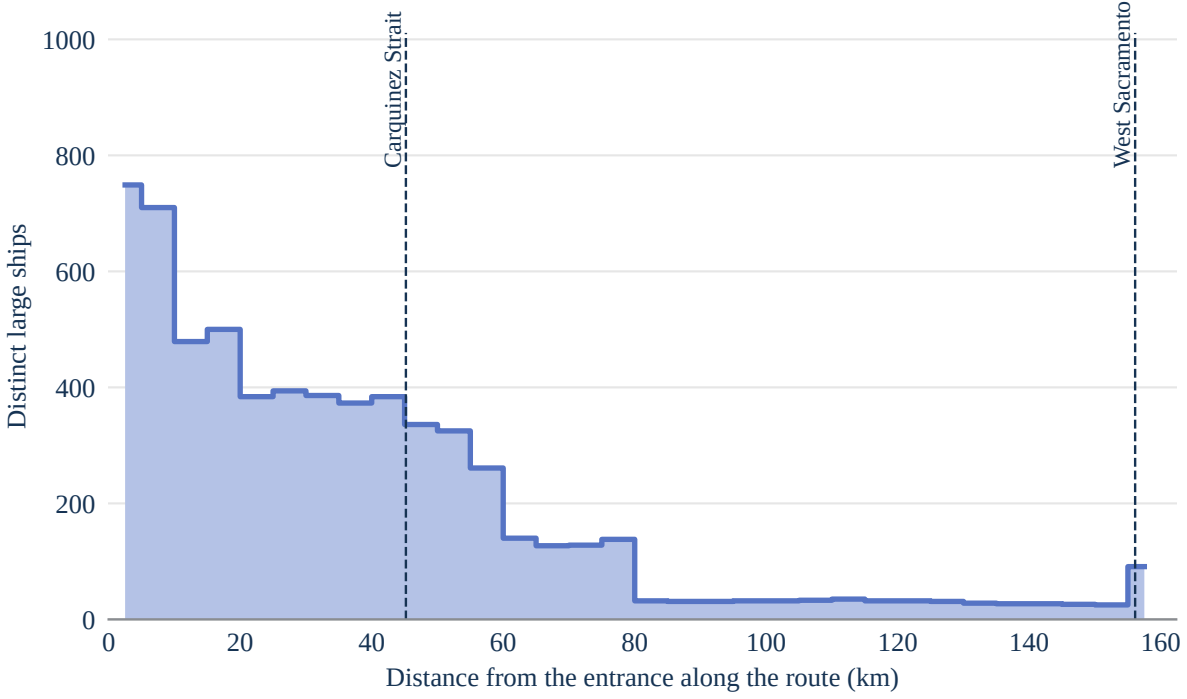

91 large ships reach West Sacramento, 156 km from the entrance: 12% of the 743 seen at the entrance

Sacramento River: distinct large ships per route cell (map) and per 5 km reach (chart), 2024 and 2025 together (53 at the head in 2024, 46 in 2025)

Distinct ships per cell (gray: other large-ship routes)

1-9 10-49 50-199 200-499 500+

Source: NTIA analysis of MarineCadastre AIS, 104 sampled days in 2024 and 2025; large ships = cargo, tanker, passenger, military, and other seagoing ships 100 m or longer, plus tug-barges near the coast. Distance is measured along the large-ship route cells from the entrance.
