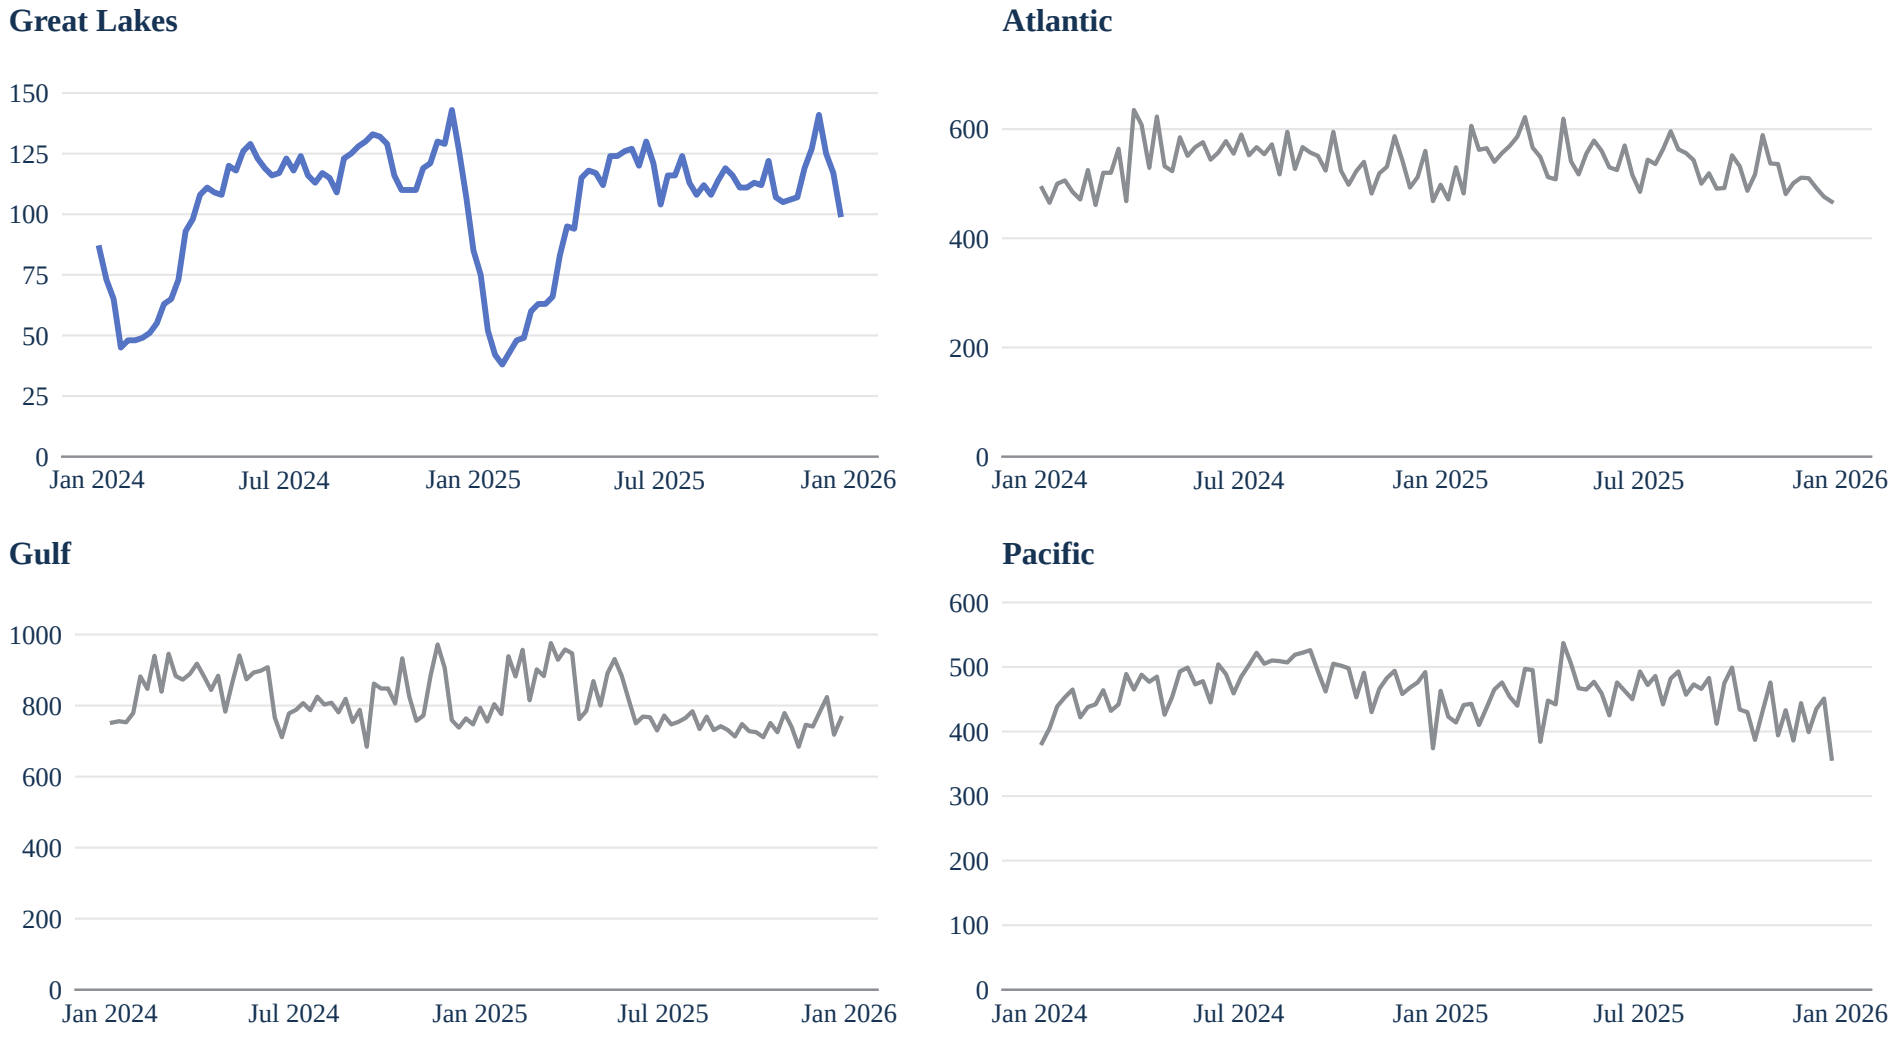
DRAFT//PRE-DECISIONAL

Great Lakes traffic falls by half in winter; the ocean coasts barely change

Distinct large ships on each sampled Wednesday, 2024 and 2025



Source: NTIA analysis of MarineCadastre AIS, 104 sampled days in 2024 and 2025; large ships = cargo, tanker, passenger, military, and other seagoing ships 100 m or longer, plus tug-barges near the coast. Coasts are split by simple latitude and longitude boxes.
