DRAFT//PRE-DECISIONAL

85% of large-ship traffic is in cells that pass the threshold in both years

Route cells with 4 or more ships in both 2024 and 2025 (336,369 cells, blue) or in only one year (322,498 cells, gray)

Source: NTIA analysis of MarineCadastre AIS, 104 sampled days in 2024 and 2025; large ships = cargo, tanker, passenger, military, and other seagoing ships 100 m or longer, plus tug-barges near the coast.
