DRAFT//PRE-DECISIONAL

Half of all large-ship route cells are within 100 km of shore; 24% are within 50 km

Large-ship route cells colored by distance from the Census coastline

Source: NTIA analysis of MarineCadastre AIS, 104 sampled days in 2024 and 2025; large ships = cargo, tanker, passenger, military, and other seagoing ships 100 m or longer, plus tug-barges near the coast. Coastline: Census TIGER/Line 2023.
