DRAFT//PRE-DECISIONAL

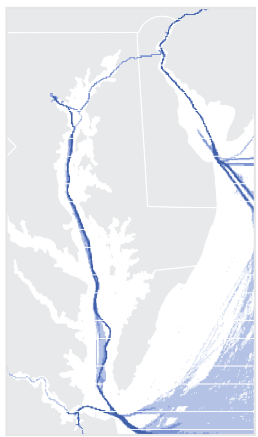

Inside the busiest port areas, large ships keep to narrow channels; these six areas hold 25% of the busiest route cells

Distinct large ships per 1 km route cell, 2023 and 2024 together (busiest cells: 200 or more ships)

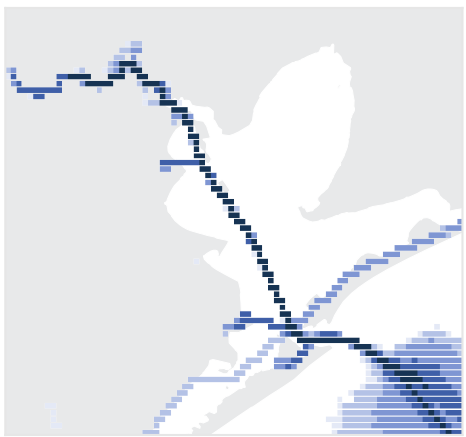

New York-New Jersey

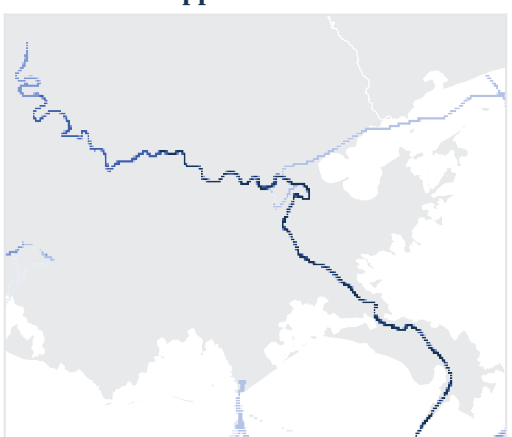

Chesapeake and Delaware Bays

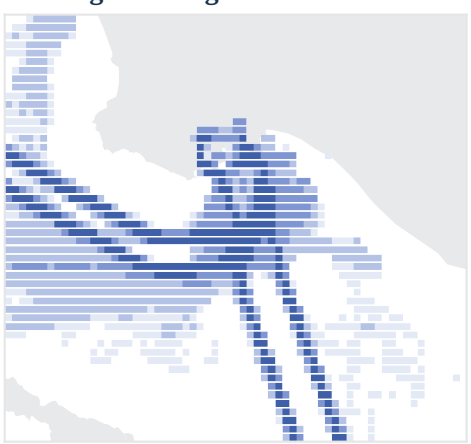

Houston-Galveston

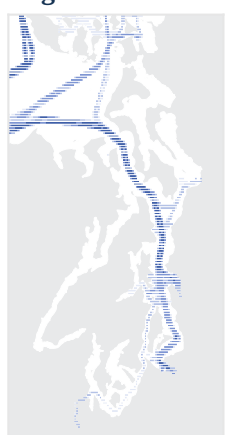

Lower Mississippi

Los Angeles-Long Beach

Puget Sound

Source: NTIA analysis of MarineCadastre AIS, 104 sampled days in 2023 and 2024; large ships = cargo, tanker, passenger, military, and other seagoing ships 100 m or longer, plus tug-barges near the coast.
